Education

San Jose State University San Jose, CA
Bachelor of Science in Computer Science *2027*

- Relevant Coursework: Data Structures & Algorithms, Operating Systems, Database Management Systems, Software Engineering, Information Security, Processing Big Data, Computer Networks

Experience

Cornell Tech AI/ML Fellow Mar. 2026 – Present
Break Through Tech Program *Remote*

- **Selected from 4,300+ applicants** for a year-long **AI/ML** fellowship centered on real-world ML application
- Building **Python**, **data analysis**, and **machine learning** skills through hands-on curriculum work
- Partnering with **KPMG** to build a **RAG-based LLM agent** that retrieves and synthesizes **AI research** into business-relevant insights

Engineering Consultant Ambassador May 2026 – Present
Responsible Computing Club (RCC), SJSU *San Jose, CA*

- Scoped and delivered **client-facing** technical solutions, translating **customer** needs into deployed outcomes
- Managed **concurrent client engagements**, coordinating priorities across engineering and stakeholder teams
- Leading **front-end development** and **UI/UX** collaboration on **AI Valley**'s company website, from design through deployment

Lab Instructor — CS 46B: Introduction to Data Structures Aug. 2026 - Present
San Jose State University *San Jose, CA*

- Teach weekly **3-hour lab sections** for **30 students**, reinforcing data structures through hands-on coding activity
- Guide students through **live debugging** and problem-solving, adapting instruction to different learning styles

Teaching Assistant — CS 122: Advanced Python June – Aug. 2026
San Jose State University *San Jose, CA*

- Evaluated weekly assignments, translating recurring learning gaps into course delivery improvements

Projects

Verdict (HackHayward) | *Next.js 15, TypeScript, Perplexity API, Vercel* Mar. 2026

- Scoped **MVP** and sequenced **cross-functional workstreams** to ship an **AI-driven** platform in **24 hours**
- Orchestrated **6 parallel LLM calls** to generate VC-style memos with **market sizing** in **60 seconds**
- Engineered **8-dimension viability scoring**, translating **product data** into clear **investment reports**

Preoperative Assessment Tool (NorthBay Health) | *JavaScript, HTML, Tailwind CSS* Jan. 2026

- Automated pre-op orders across **50+ protocols** for a hospital with **800+ monthly procedures**
- Gathered weekly **stakeholder feedback** to iteratively **validate** and refine logic against real user needs
- Standardized **clinical workflows**, reducing process variation across hospital-wide operations

Chore Assignment System | *Next.js, TypeScript, Firebase, Vercel* Dec. 2025

- **Reduced scheduling overhead by 95%** for 51 residents by owning **end-to-end program delivery**
- Sequenced **critical path dependencies** across data, admin, and reporting to ensure **on-time delivery**
- Scaled system to support **200+ residents** across multiple communities, expanding **operational coverage**

Technical Skills

Languages: Python, Java, JavaScript, TypeScript, C, C++, HTML, CSS
Frameworks: React, Next.js, Node.js, FastAPI, Tailwind CSS, Pandas, NumPy
Developer Tools: Git, GitHub, Linux, MySQL, Firebase, Supabase, MongoDB, Vercel, VS Code, Cursor, Claude Code
PM & Process: Agile/Scrum, JIRA, SDLC, roadmap planning, stakeholder communication, system design (UML)
